

Press Release:

Kissito Post Acute

5228 Valleypointe Pkwy.
Bldg. B, Suite. 1
Roanoke, VA 24019

Roanoke, VA - August 2, 2008

We are very excited to be opening Cane Island Post Acute Care in Katy, Texas, on August 27, 2008.

The team has been working hard to prepare for this date and will be conducting staff orientation during the week of Aug 4-8. Initial hiring has been completed as well as plans for round 2 hiring after we clear our initial survey.

We will have an open house for the local medical community on September 18 which gives us enough time to clear survey and begin the ramp up for admissions.

The photos were taken July 22nd as we invited the "founding few" for pizza and soda. We took the time to write on the foundation which will soon be covered with carpet. The writings are near and dear to the hearts of the staff at Cane Island and will be something we can all hold on to. We will know each time we cross over this area that our writings are there reminding us of commitments made at this event.

You will notice, in the group photo, that we are holding our hands up with the thumb and pinkie finger extended. This is Sign Language for Play, symbolic of the Fish Philosophy.

We are so thankful for everyone who has been involved in this project from the corporate office, field staff, as well as facility staff from other parts of the country who have contributed time and expertise to see this plan through.
